

## Invisible Children E-Waste Fundraiser

It's about protecting the environment and leaving it a better place for future generations across the planet.

### About the Program:

Project KOPEG offers a unique fundraising opportunity with our E-waste Recycling Fundraiser Program.

What makes this such a unique fundraiser?

- Simplicity
- There is nothing to sell
- No startup fees
- It greatly benefits our environment
- There is no asking for cash donations
- People are very willing to donate their used electronic devices
- There are literally hundreds of millions of cell phones, ink cartridges and other electronics in need of recycling
- We pay for shipping

We can recycle the following e-waste items to benefit Invisible Children:

- Cell Phones & Chargers
- Ink & Toner Cartridges
- iPods & Mp3 Players
- Digital Cameras
- Pocket PCs, Handhelds, P DAs & Palm Pilots

All Proceeds will benefit Invisible Children and its programs.

### About us:

Combining the idea of environmental responsibility and philanthropy our founders put together a company with a win-win solution for our environment and worthwhile causes. In its first year Project KOPEG made amazing strides and recycled tens of thousands of cell phones. In 2007 we expanded our e-waste recycling program to include cell phones & chargers, ink/toner cartridges, PDAs, digital cameras, Mp3 players and virtually all hand-held electronic waste.

We recycle within the US, according to strict EPA regulations. We also practice iZero-Landfill recycling.

We are very proud to have been selected as the e-waste

recycler for the newly founded National Green Chamber of Commerce. Visit their website at [www.thegreenchamber.org](http://www.thegreenchamber.org).
